

## Turco<sup>®</sup> Super Carb

### **COLD TANK IMMERSION CLEANER REMOVES CARBON, PAINT, SOIL FASTER, EFFICIENTLY, AND ECONOMICALLY.**

Turco<sup>®</sup> Super Carb is a potent, effective carbon and paint remover, formulated especially to give you maximum cleaning results at minimum cost. Turco<sup>®</sup> Super Carb puts an end to tedious hand scraping, chipping and wiping of parts. Your mechanics are free to do other important jobs while Turco<sup>®</sup> Super Carb is releasing its power in your soak tank.

#### **Blasts the most stubborn soils yet can be used on all types of metal.**

Combining high wetting action with superb emulsifying properties, Turco<sup>®</sup> Super Carb quickly penetrates through the most stubborn of soils to the base metal underneath. Here, powerful solvent ingredients take over and quickly destroy the adhesion of soil to metal, lifting and dissolving contaminants so that they can easily be washed down the drain with the rinse. Turco<sup>®</sup> Super Carb makes quick work of carbon, baked-on paints, engine varnish, sticky gums, oil, grease and other adhesive soils commonly found on engine parts, accessories and tools.

Turco<sup>®</sup> Super Carb can be used on all types of industrial metals, reactive or non-reactive.

#### **Built-in power protection assures remarkably long tank life.**

Turco<sup>®</sup> Super Carb is a two-layer material with a fabulously long tank life. Its potent solvent cleaning ingredients are incorporated into the lower (cleaning) layer. This layer is protected against loss of power and evaporation by a floating liquid chemical surface seal. The seal acts as a rinse... helps wash off and recover solvents clinging to the work... keeps the solvents clean and active, ready to do their job on succeeding loads of work at full strength.

#### **Turco<sup>®</sup> Super Carb offers you half a dozen plus values.**

1. Easy to Use: Turco<sup>®</sup> Super Carb is used as received. It requires no mixing, diluting or tinkering.
2. Fast: Turco<sup>®</sup> Super Carb is used cold. There is no waiting for tanks to heat.
3. Economical: long-lived Super Carb requires no elaborate equipment. Simply use it in any convenient cold tank or container.
4. Non-Flammable.

5. Versatile: Turco® Super Carb has a wide range of application. There is a place for Super Carb in your plant, whether it be aircraft, automotive, railroad, metal-working, diesel engine, petroleum, marine or general industry. Turco® Super Carb is highly effective in cleaning engines, tools, motors, bearings and any parts which require swift, complete cleaning in a cold soak tank.

#### **How to use Turco® Super Carb?**

Immerse parts in Turco® Super Carb tank, being certain that parts are completely immersed in the lower layer of the solution. (The upper layer has no cleaning ability). When soil becomes soft and spongy, withdraw parts from the tank. Flush off loose oil with a pressure rinse.

The seal must be maintained at its proper level of a minimum of 10% by volume at all times periodically adding tap water to compensate for evaporation. Maintain a minimum seal depth of 7 – 10 cm. To keep parts from lying in sludge that will form in tank bottom, it's recommended that grids be installed. Periodically allow solution to settle for 24 hours so that it can be drained off and the sludge removed from the tank bottom. To minimize drag out, rack parts so they drain as completely as possible.

#### **CAUTION:**

Contains chlorinated hydrocarbons and phenolic bodies. Use with adequate ventilation. Avoid contact with skin, eyes and clothing. Refer to product label and MSDS for handling information.

#### **NOTICE:**

*The above information and recommendations concerning this product are based upon our laboratory tests and field use experience. However, since conditions of actual use are beyond our control, any recommendations or suggestions are made without warranty, express or implied. Manufacturer's and seller's sole obligation shall be to replace that portion of the product shown to be defective. Neither shall be liable for any loss, damage, or injury, direct or consequential, arising out of the use of this product.*
