

TURCO Lusterite 4

EXTERIOR CLEANER AND POLISH

Description

TURCO Lusterite 4 is a specially developed compound for chemically cleaning and polishing exterior surfaces - with or without the use of a water rinse.

Characteristics

A creamy brown emulsion. Removes all types of jet aircraft soils, including Skydrol, synthetic engine oils, carbon, grease and other associated aircraft operation deposits. Also very suited as a general cleaner and polish.

- Forms protective film on surfaces to allow ease of subsequent cleaning.
- Restores luster to paint and aluminium surfaces.
- FOR USE ON ALL AIRCRAFT METALS INCLUDING HIGH STRENGTH STEEL AND PAINT.
- Non-crazing to Plexiglas.
- Removes carbon from white tops and engine exhaust areas.
- Excellent for cold weather cleaning, in combination with antifreeze.
- Easy to remove.

Use instructions:

1. Apply undiluted Lusterite 4 by mops or brush. Agitate until all soil and paint oxidation are loosened.
2. High-pressure water rinse._Or remove with mops while still wet._Or allow drying and mopping off. (For dry cleaning, mop application and removal is recommended).

Safety:

Consult MSDS for health and safety risks.
