

TURCO® RINSE

LIQUID CLEANER WITH PASSIVATING PROPERTIES

Turco Rinse is a liquid product based on organic inhibitors and surfactants, normally used for cleaning and passivating of metals.

Turco Rinse fulfills the demand of DIN 51360, Part II.

APPLICATION:

Turco Rinse is used in dip tanks or spray units, when there is also a need for rust protection besides cleaning.

After drying, Turco Rinse prevents during storage resoiling of treated parts.

Turco Rinse causes no problems after treatment binding of pipes.

USE INSTRUCTIONS:

Concentration: 1 - 3% in water

Temperature: room temperature up to 55 °C. When using Turco Rinse in spray units min. temperature is 40 °C.

SAFETY:

Turco Rinse contains no nitrite.

Avoid contact with skin and eyes. Use protective gloves and eye protection.
